Remote Opportunity Research & Vetting Report

Prepared by: Ruth Salvage Egyir | Executive Assistant | Operations Support Specialist
Research date: 15 October 2026
Project type: Research and vetting sample (Virtual Assistant / Administrative / Customer Support)

1. The brief

A client needs a shortlist of companies that hire remote Virtual Assistants, Administrative Assistants or Customer Support Assistants and can accept applicants based in **Ghana**. The brief set three rules: use official company pages first, never invent vacancies or links, and label anything that cannot be verified.

2. Method

1. Searched job boards and aggregators to find candidate companies.
2. Opened each company's own careers or application page wherever it was accessible.
3. Recorded seven fields per company: company and website, role title, application link, Ghana eligibility and the evidence for it, required skills, remote scope, and fees or warning signs.
4. Ranked evidence: employer's own page first, then third-party listings. If the two disagreed, the employer's page won.
5. Labelled each finding **Verified**, **Plausible but unconfirmed**, or **Unverified**.

3. Results at a glance

Company	Ghana eligibility	Status	Evidence
Pavago	Africa-wide candidate programme; Ghana-based profiles shown	Plausible, unconfirmed	Pavago Africa page (self-published, undated)
Crossover	Ghana page exists; no public support roles open at last check	Unverified for now	Crossover Ghana support page
Afri VA Hub	States it recruits only from Africa	Unverified business	Career page (updated 1 Sep 2026)
beehiiv	Ghana is on the excluded list	Not eligible	Posting on Himalayas (posted 18 Sep 2026)
OnlineJobs.ph	States it does not accept workers from Africa	Not eligible	Official jobseeker page
Wing Assistant	Postings are country-specific (e.g. US only); none seen for Ghana	No Ghana role found	Wing US posting
Time Etc	Wants 5-8 years of experience; Ghana not mentioned	Not a fit	Time etc freelance page

4. Opportunity profiles

Pavago (talent marketplace)

- No live, role-specific vacancy was confirmed as open to Ghana-based applicants on the day of research.
- Several company sites were unavailable or blocked, and some evidence came from third-party mirrors. Each is labelled above.
- Listings change often. Every link should be re-checked before anyone applies.

8. Recommended next steps for the client

1. Create a Pavago profile and review the client roles that appear.
2. Check the Crossover Ghana page weekly for new support openings.
3. Before applying anywhere, confirm eligibility on the employer's own page and never pay a fee.

9. Skills demonstrated

Online research, source vetting and fact-checking, risk and scam screening, structured reporting, clear writing for non-specialist readers.
